EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Carl I. Brundidge (Reg. No. 29,621) on 2/6/06. This amendment was made to overcome a 112-2nd paragraph rejection where the disk array device being claimed would incorporate an externally located high order device.

The application has been amended as follows:

In claim 1 line 1, the term --- adaptable to communicate with an externally located high-order device, the disk array device --- has been inserted between "array" and comprising:".

In claim 1 line 2, the term "with a" has been changed to --- with the ---.

In claim 1 line 3, the term "located external to the disk array device" has been deleted.

In claim 1 line 11, a colon --- : --- has been inserted after the word "includes".

Allowable Subject Matter

Claims 1-6 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance: The prior art of record alone or in combination does not teach or fairly suggest a storage device control board including a connection circuit connected to a storage device, and switch circuits that are respectively disposed at an input side and an output side of the connection circuit and are switchable between a connected mode where they are connected to an adjacent storage device

control board and an independent mode where they are separated from the adjacent storage device control board, and the switches are switchable between the connected mode and the independent mode by an output signal from a management unit..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
